# Snapshot Report

The National Assessment of Educational Progress (NAEP) assesses science in two major dimensions: Fields of Science (Earth, Physical, and Life) and Knowing and Doing Science (Conceptual Understanding, Scientific Investigation, and Practical Reasoning). The NAEP science scale ranges from 0 to 300. Scales are created separately for each grade.

# **Overall Science Results for Wisconsin**

- Wisconsin's average score (158) in 2005 was higher than that of the nation's public schools (149).1
- Of the 44 states and one jurisdiction that participated in the 2005 fourth-grade assessment, students' average scale score in Wisconsin was higher than those in 28 jurisdictions, not significantly different from those in 13 jurisdictions, and lower than those in 3 jurisdictions.2
- The percentage of students in Wisconsin who performed at or above the NAEP Proficient level was 35 percent in 2005. This percentage was greater than that in the nation (27 percent).
- The percentage of students in Wisconsin who performed at or above the NAEP Basic level was 77 percent in 2005. This percentage was greater than that in the nation (66 percent).

NOTE: The NAEP grade 4 science achievement levels correspond to the following scale points: Below Basic, 137 or lower; Basic, 138-169; Proficient, 170-204; Advanced, 205 or above

Performance of NAEP Reporting Groups in Wisconsin: 2005				
	Percent	Averag		
Reporting groups	of students	sco		

	Percent	Average	Percent	Percent of stude	nts at or above	Percent	
Reporting groups	of students	score	below Basic	Basic	Proficient	Advanced	
Male	52	159↑	22↓	78↑	38↑	4	
Female	48	156 🕇	24↓	76↑	32↑	3	
White	78↑	164↑	14↓	86↑	42↑	4	
Black	11↓	126	66	34	5	#	
Hispanic	7↓	138	50	50	12	#	
Asian/Pacific Islander	3↓	148↓	38	62	25	2↓	
American Indian/Alaska Native	1	‡	‡	‡	‡	#	
Eligible for free/reduced-price school lunch	32↓	143 <b>†</b>	42↓	58↑	18↑	1	
Not eligible for free/reduced-price school lunch	67↑	165↑	14↓	86↑	44↑	4	

#### **Average Score Gaps Between Selected Groups**

- In 2005, male students in Wisconsin had an average score that was higher than that of female students by 4 points. In the nation, the average score for male students was higher than that of female students by 4 points.
- In 2005, Black students had an average score that was lower than that of White students by 38 points. This performance gap was wider than that of the nation (33 points).
- In 2005, Hispanic students had an average score that was lower than that of White students by 26 points. In the nation, the average score for Hispanic students was lower than that of White students by 29 points.
- In 2005, students who were eligible for free/reduced-price school lunch, an indicator of poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 22 points. This performance gap was narrower than that of the nation (27 points).
- In 2005, the score gap between students at the 75th percentile and students at the 25th percentile was 38 points. This performance gap was narrower than that of the nation (43 points).

### **Science Scale Scores at Selected Percentiles**

## Scale Score Distribution

	25 <sup>th</sup> Percentile	50 <sup>th</sup> Percentile	75 <sup>th</sup> Percentile
Wisconsin	140	160	178
Nation (public)	129*	152*	172*

Scores at selected percentiles on the NAEP science scale indicate how well students at lower, middle, and higher levels performed. For example, the data above shows that 75 percent of students in public schools nationally scored below 172, while 75 percent of students in Wisconsin scored below 178.

‡ Reporting standards not met.

↑ Significantly higher than nation (public). ↓ Significantly lower than nation (public).

"Jurisdiction" refers to states and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for free/reduced-price school lunch and the "Unclassifed" category for race/ethnicity are not displayed. Visit http://nces.ed.gov/nationsreportcard/states/ for additional results and detailed information. SOURCE: U.S. Department of Education, Institute of Education Sciences, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 2005 Science Assessment

<sup>#</sup> The estimate rounds to zero.

<sup>\*</sup> Significantly different from Wisconsin.

<sup>1</sup> Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Comparisons across jurisdictions and comparisons with the nation or within a jurisdiction across years may be affected by differences in exclusion rates for students with disabilities (SD) and English language learners (ELL). The exclusion rates for SD and ELL in Wisconsin were 2 percent and 1 percent in 2005, respectively. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
